

## Muroc Model Masters

Radio Control Aircraft Flying Club  
<http://www.murocmodelmasters.org>

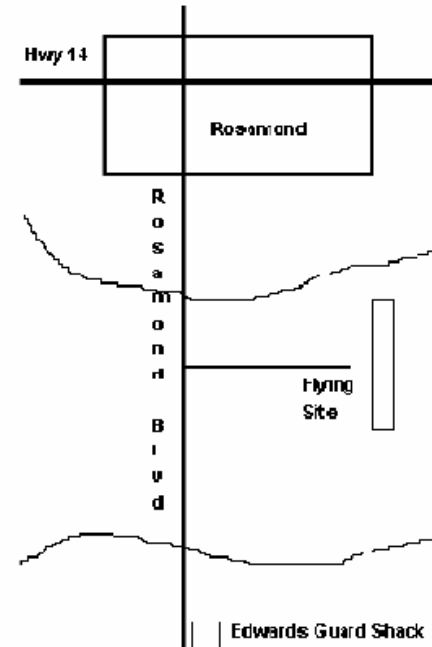

Come and enjoy the wonderful hobby of Radio Control Airplanes. Our club Instructors will help you learn to fly either your own aircraft or the club's R/C trainer. Either way, you don't want to miss out on all the fun and excitement of building and flying your very own radio controlled aircraft.

All members of the Muroc Model Masters receive our monthly newsletter.

**CLUB MEETINGS:** The Muroc Model Masters meet the second Wednesday of each month, 6:30p at Fox Field on 45<sup>th</sup> West and Ave G in the main lobby. The meetings consist of important club business, a show and tell of airplanes or products, and product or technique demonstrations. It's a good time to meet other club members, and learn about building and flying.

### Muroc Model Masters Flying Field

The primary flying field for the Muroc Model Masters is located on Rosamond Dry Lake just north of Rosamond Blvd. The dry lakes of Edwards are off limits to normal travel so please stay on the designated road out to the flying field. Edwards AFB Security Police patrol this area and your Model Masters Club card is your pass onto the lake bed. All guests must be accompanied by a member of the club.

Our flying site is the BEST site for both experimental aircraft and learning to fly. Most fields have a concrete runway a few hundred feet long and only 50 feet or so wide. Our flying surface is  $\frac{1}{4}$  mile wide and 2 miles long, affording very long approaches and touchdowns and improving your chances of successful landings.
